

Simplifying Patient Access for Adalimumab-aaty

To help patients start and stay on therapy, Celltrion is utilizing CoverMyMeds' trusted technology and solutions to provide access to patient support services beyond electronic prior authorization for Adalimumab-aaty. CoverMyMeds enables access to patient support services for Celltrion CONNECT® Patient Support Program while providing consistent visibility into the patient journey.

Please see full Prescribing Information, including Boxed Warning [here](#).

End-To-End Patient Support in One Centralized Platform

The Celltrion CONNECT® Patient Support Program is now available within CoverMyMeds.

Located within your CoverMyMeds account, you can access integrated patient support resources following the prescription to start of therapy – helping to consolidate processes and access for patients prescribed Adalimumab-aaty.

Now with CoverMyMeds, you can electronically:

- » Enroll patients in Celltrion CONNECT® Patient Support Program for Adalimumab-aaty
- » Perform benefits verification (BV)
- » Submit prior authorization and receive technical support for formulary exceptions and appeals
- » Access copay assistance
- » Track patient case status
- » Submit prescription at the point of enrollment to CoverMyMeds Specialty Pharmacy

Key benefits

No additional technology required, e.g. EHR integrations or equipment

Utilize all access activities and Celltrion CONNECT® Patient Support Program resources through one centralized location

Auto-populated patient demographic (non-clinical) information you've already provided into responsive forms

Prescription may be transferred to the appropriate dispensing pharmacy upon coverage determination

Dedicated CoverMyMeds case managers available in real-time via phone or live chat

Starting a New Patient on Adalimumab-aaty

As a central location for patient support services, CoverMyMeds enables prescribers to simultaneously submit a valid prescription and enroll a patient in the Celltrion CONNECT® Patient Support Program using the program enrollment form. By removing multiple platforms to prescribe and enroll, workflows are consolidated with the goal of helping patients access therapy faster.

Prescribe via enrollment within CoverMyMeds

- 1 Log in to or create your CoverMyMeds account at covermymeds.com. Select **New Request** and enter medication name.
- 2 Select **Start Enrollment** to request patient enrollment in Celltrion CONNECT® Patient Support Program* and complete indicated **prescription fields** on the enrollment form.
- » You can also select **prior authorization** from this step.
- 3 Click **Submit** to complete enrollment and send a prescription to CoverMyMeds Specialty Pharmacy. Once determined, CoverMyMeds Specialty Pharmacy will transfer to the appropriate pharmacy.
- » Select **Cases** on the left to view your patient's case status at any time.

* For supported medications
